This report is about the possibility to reduce image file sizes without any loss of image quality.

From the given source we have downloaded and checked 2 images.  
The total file size could be reduced from 17.33 Kilobytes by 0% to 17.33 Kilobytes.

**Congratulations! The images we checked are fully optimized!**

Hint: You have analyzed a single page only. We can also crawl more subpages automatically (e.g. the main page "www.example.com" linking to "www.example.com/subpage" etc.) or even check the whole site with FTP access. If you would like to have a more in-depth analysis, feel free to contact us. We are happy to help.

If you need to optimize images for more than a one time basis, you might be interested in our monthly packages. The monthly packages offer you a great discount compared to the cost of invoicing single images.
