

FREE OF CHARGE ANALYSIS REPORT [SINGLE WEBSITE] OF:
<http://blog.babycomfort.ro>

Report created on Fri Dec 11 9:53:51 CET 2015 | ReportID: wK5KQ63fQZ6d

Page 1 of 4

This report is about the possibility to reduce image file sizes without any loss of image quality.

From the given source we have downloaded and checked 110 images.
The total file size could be reduced from 1.85 Megabytes by 46.94% to 1004.48 Kilobytes.

To achieve that webpage speed optimization goal, you need to optimize 100 out of 110 images.

>>> Click here to order your optimized images fast and easy now! <<<

<https://www.website-speed.info/Order/wK5KQ63fQZ6d>

You can order the optimized images within 14 days after the report was created.

Hint: You have analyzed a single page only. We can also crawl more subpages automatically (e.g. the main page "www.example.com" linking to "www.example.com/subpage" etc.) or even check the whole site with FTP access. If you would like to have a more in-depth analysis, feel free to contact us. We are happy to help.

If you need to optimize images for more than a one time basis, you might be interested in our monthly packages. The monthly packages offer you a great discount compared to the cost of invoicing single images.

>>> Click here to get more information about our monthly packages! <<<

You can review every image we downloaded from the given source and the optimization possibility of the images in the comprehensive list starting on the next page.

For easier understanding, we marked images that can be optimized by 20% or more in red, images that can be optimized up to 20% in black and images that are already fully optimized according to the state of the art in green.
